Canada Mortgage and Housing Corporation (CMHC):

We are continuously making improvements and are looking at more ways to optimize the intake and prioritization process for the National Housing Co-Investment Fund, which will improve efficiency, reduce turnaround time, and ensure proponents have the information at every step of the way. By next year, we are targeting a reduction by 50% in turnaround time and an overall improved client experience.

Please consult the template for response.

In response to part (c), the information is not available. We currently do not report on declined applications. Applications remain open in the system until it is either withdrawn or cancelled. If a proponent does not meet all requirements for a loan or grant, they may continue to work on the application until all requirements are met.

Société canadienne d'hypothèques et de logement (SCHL):

Nous apportons continuellement des améliorations et cherchons d'autres façons d'optimiser le processus de réception des demandes et l'établissement des priorités pour le Fonds national de co-investissement pour le logement. Ce qui améliorera l'efficacité, réduira les délais d'exécution et veillera à ce que les promoteurs aient l'information à chaque étape du processus. D'ici l'an prochain, nous visons une réduction de 50 % des délais d'exécution et une amélioration globale de l'expérience client.

Veuillez consulter le gabarit pour la réponse.

En réponse à la partie c), l'information n'est pas disponible. Nous ne faisons actuellement pas de rapport sur les demandes refusées. Les demandes restent ouvertes dans le système jusqu'à ce qu'elles soient retirées ou annulées. Si un promoteur ne satisfait pas à toutes les exigences d'un prêt ou d'une subvention, il peut continuer à travailler sur la demande jusqu'à ce que toutes les exigences soient remplies.
